Sensor Shield V4.0 Sensor Expansion Board For Arduino Robot Electronic Building Blocks

Description:

Plug and play.

Build electronics projects just as easy as piling bricks.

Each terminal module has buckled port with VCC, GND and output.

Allows you to connect to various modules like sensors, servos, relays, buttons, potentiometers etc.

Buckled brick cables are like cement for bricks, make the connections easier, secure and more professional looking.

Package included:

1 x Sensor shield V4.0
