# **Technical Data Sheet**

# • Product Description:

- · Single component room temperature curing silicone sealant
- $\cdot$  It has good flow performance, and has good extrusion performance In the range of  $4{\sim}40$  °C
- No corrosion to metal, glass, gypsum board, marble and plastic etc,and good adhesion performance
- Excellent weather resistance, good waterproof and insulation properties
- High temperature and low temperature resistance, and at - 40°C of low temperature will not become brittle, hardening or cracking, at the temperature of 180°C will not soften, degradation after cured, and always maintain good elasticity
- · Comply with EU ROHS directive requirements

## • Product Application:

- Insulation seal for electrical switch
- Insulation seal for relays and other electronic components
- LED lamp adhesive, waterproof, insulation, sealing

## • Product Instruction:

• Please make sure the coated surface is absolutely clean and dry, and remove the rust, dust and oil stains on the surface before use.

• Cut the projecting part on the top of the tube, then squeeze out the glue on the objects and apply it evenly • If the thickness of glue applied on the objects ranges from 2mm to 4mm, it's better to place the objects under indoor temperature and with 55% relative humidity, then it'll cure naturally within 24 hours. But if the thickness of glue applied on the objects surpasses 6mm. it'll takes at least 7 days to cure under the same condition.

 $\cdot$  Please store the glue sealed after used

## • Caution:

• This product is non-toxic after completely cured , but should avoid contact with the eyes and children before curing, and working area maintain ventilation

# Technical Specification:

#### Model: MT-705B Translucent

Performance	Data
Colour	Translucent
Mobility	Half flow
Surface dry time(min)	7-15
Full cure time(H)	24
Tensile strength(Mpa)	1.2
Viscosity (mPa.s)	150000
Density (g/ml)	$1.05 \pm 0.08$
Hardness(ShoreA)	20-30
Volume resistivity( $\Omega$ .cm)	<b>3.5*</b> 10 <sup>14</sup>

# • Packing Specification:

- 50 ml/tube, 200 tube/box
- 300 ml/tube, 25 tube/box
- 2600 ml/tube, 4 tube/box

## • Storage And Transport

• This product should be stored in a dry, cool place, avoid rain, sun exposure, storage period of four months  $(25^{\circ}C)_{\circ}$ 

 $\cdot$  Such products are non hazardous and can be transported in general chemicals
