

No	Item No	Picture	Specification	
1	501B Black		Material: T6061 aircraft grade aluminum Lens: toughened glass Body color: Black Finish: Anodization,Abrasion Resistance Circuit board: Memory function,constant working current and voltage Protection Protect from overheat Battery: 1*18650 Switch: Tail cap switch	LED: CREE T6 LED liftspan: 50,000Hours Reflector: SMO Working voltage: 3.7V Working current: 1A Lumens(max): 800LM Beam Distance(max): 180 meters Runtime: 3-4hours Output functions: High-Medium-Strobe Waterproof IP44
2	501B Military		Material: T6061 aircraft grade aluminum Lens: toughened glass Body color: Military color Finish: Anodization,Abrasion Resistance Circuit board: Memory function,constant working current and voltage Protection Protect from overheat Battery: 1*18650 Switch: Tail cap switch	LED: CREE T6 LED liftspan: 50,000Hours Reflector: SMO Working voltage: 3.7V Working current: 1A Lumens(max): 800LM Beam Distance(max): 180 meters Runtime: 3-4hours Output functions: High-Medium-Strobe Waterproof IP44
3	C8-T6		Material: T6061 aircraft grade aluminum Lens: toughened glass Body color: Black Finish: Anodization,Abrasion Resistance Circuit board: Memory function,constant working current and voltage Protection Protect from overheat Battery: 1*18650 Switch: Tail cap switch	LED: CREE T6 LED liftspan: 50,000Hours Reflector: SMO Working voltage: 3.7V Working current: 1A Lumens(max): 800LM Beam Distance(max): 180 meters Runtime: 3-4hours Output functions: Low-Medium-High-Strobe-SOS Waterproof IP44
4	K300		Material: T6061 aircraft grade aluminum Lens: toughened glass Body color: gold Finish: Anodization,Abrasion Resistance Circuit board: Memory function,constant working current and voltage Protection Protect from overheat Battery: 4*18650 Switch: Tail cap switch	LED: 3 pcs CREE T6 LED liftspan: 50,000Hours Reflector: SMO Lumens(max): 3000LM Beam Distance(max): 300 meters Runtime: 3-4hours Output functions: High-Medium-Strobe Waterproof IP44
5	K54K		Material: T6061 aircraft grade aluminum Lens: toughened glass Body color: gold Finish: Anodization,Abrasion Resistance Circuit board: Memory function,constant working current and voltage Protection Protect from overheat Battery: 4*18650 Switch: Tail cap switch	LED: 5 pcs CREE T6 LED liftspan: 50,000Hours Reflector: SMO Lumens(max): 4200LM Beam Distance(max): 500 meters Runtime: 3-4hours Output functions: Low-Medium-High-Strobe-SOS Waterproof IP44
6	Y3		Material: T6061 aircraft grade aluminum Lens: toughened glass Body color: Black Finish: Anodization,Abrasion Resistance Circuit board: Memory function,constant working current and voltage Protection Protect from overheat Battery: 4*18650 Switch: Tail cap switch	LED: 3 pcs CREE T6 LED liftspan: 50,000Hours Reflector: SMO Lumens(max): 2200LM Beam Distance(max): 300 meters Runtime: 3-4hours Output functions: Low-Medium-High-Strobe Waterproof IP66
